

Fire Prevention & Burn Safety Tips

Campfires are the nation's leading cause of children's camping injuries, and primary catalyst for damaging forest fires.

Call 9-1-1

Ask for help in case of emergency —
Stay calm and give them your address with landmarks

Stop, Drop, & Roll!

If your clothes were to catch on fire —
Stop what you're doing, drop to the floor, and roll

Stay Three Feet Away

Keep kids and pets at least three feet away from heat sources

Keep Water Nearby

Have fire extinguishing equipment readily available for use

Beware of Fire Hazards

Watch stoves, outdoor grills, fire pits, and campfires —
Never leave them unattended

**“Large campfires are great, but be respectful of them.
Have a bit of space; don't be right by it,
especially if you're drinking.”**

— Dr. Saman Arbabi, HIPRC Injury Section Lead
