## **Share these Poison Prevention Tips:**

**When the unexpected happens,  
POISON HELP is here for you!**

If an individual has ingested a poison...

**Call 1-800-222-1222**

If an individual is experiencing a medical emergency  
such as difficulty breathing, having a seizure,  
has collapsed, or cannot be awakened...

**Call 9-1-1 Immediately!**

**Safe Storage is extremely important!**

Even though many medications and supplements are now improved to be child-resistant, it is always important to keep these items *out of reach* from little ones.

**Medicines are OK in the right amount,  
*for the right person.***

**Medication mistakes can be especially harmful for children.**

**It is dangerous to take a wrong medicine, *or to take too much!***

## **Download a Poison Safety Checklist**

These potentially harmful items in your home need to be used and stored safely. Keep them out of sight — and out of reach of children.

**If possible, *lock them up!***
